2 INTAKES
MAY 16TH & JUNE 13TH

3A - THE BUSINESS SCHOOL DEDICATED TO HUMANITARIAN AND DEVELOPMENT PROFESSIONS

For more than 35 years, the 3A school has been training operational professionals capable of managing projects in international organisations and who wish to be players of a better world. Alongside prestigious sponsors, our school defends strong values such as ethics, justice, equality, openness to the world and respect of the earth's heritage. These values are, along with management science, at the heart of our teaching: geopolitics, languages, sustainable development, social and solidarity economy, anthropology or social responsibility.

IDRAC - THE SELECTIVE BUSINESS SCHOOL Choosing IDRAC Business School means choosing a unique way of learning and of meeting future personal and professional challenges. Choosing IDRAC Business School means coming face to face with the realities of the business and professional worlds, enabling you to develop high-level professional skills, improve your soft skills and discover your ambitions. It means choosing academic excellence; ongoing educational innovation; cutting-edge research on creating and rethinking business models; a wide range of international career paths; great quality of life on our campuses; employment guidance, and preparation for work-study programs

ILERI - THE SCHOOL OF INTERNATIONAL RELATIONS Since 1948, our school has been a place where humanist values have flourished. ILERI students have many opportunities to develop their passion and individualize their pathway: choice of language courses, work experience in companies, presentations, writing of reports and theses. They benefit from a individualized follow-up by the academic team adapted to their professional project throughout their training. This intensive, high-level programme aims to provide a well-rounded education for students wishing to pursue international careers in both the public and private sectors.
